

Appendix A – Proposal Template

Name:	
Email:	
School:	
Department:	

I plan to use the Faculty Fellow Program to:

- ☐ Design a New Course
 - **Proposed Course Name:**
 - **Short Description of the Course (~100 words):**
- ☐ Re-design an Existing Course
 - **Course Number and Name:**
 - **Brief Summary of the Course (~100 words):**

I plan to teach this course in:

- ☐ Fall 2022
- ☐ Spring 2023

Objectives

Please use this section to describe, in full paragraphs and complete sentences, what you plan to do in designing or re-designing your course and how you feel the CIL's training and tools can support you in that work. Be as specific as possible. If your idea requires any specialized equipment to execute, please note that here.

Some suggested design/re-design elements include:

- Introducing a class project with a virtual exchange component
- Introducing a flipped class structure
- Developing active learning activities for each module
- Designing innovative assessment strategies
- Identifying and implementing technologies such as AR/VR to better explain complex topics
- Developing a library of online videos
- Among Others...

Note, you don't need to do everything even a small change in teaching technique can lead to big returns in learning. Let your creativity be your guide!

Aims as a Faculty Fellow

In this section, please describe why you want to be a Faculty Fellow and what activities you envision yourself participating in or leading as a Faculty Fellow once you complete this program.
